

United States District Court
District of Massachusetts

Colleen Marie Hardacre,
Plaintiff,

v.

05-10542 MLW

Referred to Ch. MJ McBride

Federal Bureau of Investigation,
U.S. Department of Justice,
And/or any other law enforcement
agency not yet disclosed,
Defendants.

Complaint

This Complaint is being filed under the
Federal Tort Claims Act (FTCA) U.S.C.
§ 2671-2680 (2401(b)). Permission to file
this Complaint was granted after filing
an administrative claim with the USDA/FBI
hereinafter FBI or Defendants. Their responsive
denial of claim under 28 C.F.R. § 14.9(a) is
attached hereto as Exhibit A.

This Complaint stems from the reckless, malicious, illegal actions of the FBI. This Agency has caused me extensive mental & physical damage which were not appropriate or legal for any crime I committed. They have violated my civil rights extensively broken many laws, illegally harmed my life & caused actual physical bodily harm due to provoke response adrenaline. The Plaintiff is trying to portray an accurate depiction of the grossly negligent actions in first violating my life with false deductions & excuses that are not based on Science or Criminal truth, and secondly their willful blindness & amnesia to their own tactics & the science consequences of them which have extensively harmed my body with adrenaline. My pelvis muscles & bladder have been damaged even to me because of provoke response adrenaline due to agent fight, noise & fear tactic. The FBI knows this & so as to force me to keep fighting with them go tape to blame me, they keep provoking & harming me on purpose, for 5 years now. Really I am suffering from their love of adrenaline provoke.

The FBI is acting maliciously + pretending like it does not understand this, yet keeps me from access to law + legal medicine to prove it + allow them to not face their liability as long as possible.

Parties

1. The Plaintiff, Colleen Marie Hardacre, "Plaintiff", is a resident of Lawrence, Massachusetts and a citizen of the United States.
2. The Defendants, the Federal Bureau of Investigation, is an agency of the Executive Branch of the U.S. Government. The F.B.I. is the principal investigative body of the U.S. Department of Justice.

Jurisdiction

3. This Complaint is being filed under the Federal Tort Claims Act § 28.45C 2680(h)

- Factual Background - FBI's 1st Appearance
4. In 1995 the Plaintiff was a law abiding citizen of the U.S. with no prior criminal record or knowledge of the FBI's involvement in her life, believing she was a free citizen not under surveillance & enjoying all freedoms as a citizen of the U.S.
 5. In October of 1995 the Plaintiff moved to Boston. She found appropriate housing & temporary work as a legal secretary until she could secure a permanent job.
 6. A few days into her temporary job, the Plaintiff asked the secretary next to her where the post office was as she needed a moving kit & stamps. The other secretary replied, "It is down the street & is a very high security building. There are metal detectors & it is like the airport." The Plaintiff thought nothing of this & obtained what she needed. Two days later while returning from lunch a tough looking woman holding a fedex package stepped into the elevator with the Plaintiff. As the Plaintiff got

Ready to exit the elevator & moved her purse, the woman who must have been an FBI agent pulled a gun on the Plaintiff & then put it away & sighed realizing I only picked up my purse. The Plaintiff was shocked & did not know what was going on & thought it must have been because she went into the High Security building. The Plaintiff later learned she has been under surveillance for years & there was no purpose for the FBI to do this as they knew I was involved in no criminal activity & had no weapons.

7. It was then that the FBI began to stalk & swarm me & let me know that I indeed was under surveillance & then I was shocked.

8. How the FBI broke the law regarding this was for years they implied & created the illusions & scared me to death, that I
involved in postal crime. One FBI employee even said to me "It's only an illusion." And while that is nice, I suffered much anguish & endured years of abuse & lost life & the FBI implied this was why. In reality I was known to already be

Under surveillance & known for a fact to be involved in nothing. This was a malicious crime.

9. I was chased around with fire trucks, postal trucks, blaring sirens, unmarked look alikes & Timothy McVey look alikes & comments re postal bombs, etc being blabbed at my by relentless FBI provokers for years. I was involved in nothing. This is a giant, malicious honor the FBI did to me. The Plaintiff filed a police report in an effort to combat Tactics the FBI attacked as Epilim B. This did nothing.

10. To understand what the FBI does, one must understand their tactics. These were used on me after the FBI let me know they were there in October of 1995 & still are to date, every day. I was abused in a conveyor belt like swarmed fashion with Comprehensive, sight & hearing provoking fight & noise abuse & fear training. I was constantly surrounded by FBI provokers everywhere, every day for 3500 days now. They infiltrate every place

that I am including shopping, about 2000
 days of work (until they disabled me with
 provoke response adrenaline + crushed my bladder
 + caused chest pain), wherever I live +
 swarm me commuting every day. While
 commuting you are swarmed by license
 plates + trucks (see Exhibit C) + traffic
 is constantly obstructed with some choreographic
 theme. They operate on a theme basis.
 Trucks, license plates, media, employees,
 all chanting the same provoking theme
 that is never actually a criminal truth of
 mine. They do it for tape so you'll fight with
 them + say whatever they want you to. They
 can make you say anything. The thing
 the FBI loves the most is noise provoke.
 It uses machines, stamping, coughing, banging,
 blubbery provoking ~~employees~~ ^(see Exhibit D) sirens,
 helicopters, planes, slamming doors + they
 literally chase you around your apartment
 with stamping noise - to provoke an increase,
 or specifically timed. This is their
 most used tactic. I call it "pot bang +
 present". They present something + noise
See Exhibit D
 list of noise at home yearly.

is timed at it. That's how they fear
 train you + force communication.
 It's like a lab rat being electrocuted. I have
 had it done to me ~~know~~ about 20 million
 times or 2 million times per year.
 Their employees are in your way all of
 the time. They control everything but send
 you 1/2 of an outfit, turn off utilities +
 Chargegraph TV, commercials + radio. They
 obstruct all phone calls + stick you on hold
 all of the time. They play word games +
 eventually make you unable to read
 without fear adrenaline. They train
 you at words by timing noise or bringing
 attention to something timing. For
 instance if they want to invent you are a
 postal criminal, when an ad for the
 post office is on TV, screen goes off. This
 trains you to fear it + forces tape of you
 saying, "I have nothing to do with the
 post office". Even if you are completely
 innocent, they keep forcing tape
 anyway. They make up things + act them
 out so you will parrot it back to them.
 They annoy you to death even about
 things that have nothing to do with crime
 yours.

The FBI surrounds you in illusions
 + trains you to fear + provoke response to
 them. This then puts in your head the
 FBI believes it + forces you to react to it.
 You then fight them, parroting whatever
 they feel like making you say + they
 tape it. Then they run around playing
 these tapes + getting away with false
 deductions, coerced tape of things that
 have nothing to do with that persons
 actual crime ever + force tape about
 things that are scientifically inaccurate
 that can be proven in a court of science.
 They spend 24 hours a day forcing tape of
 illusions that arent even accurate at all
 + forcing you to fight with them + having
 a contest to see who can enrage you the
 most. The FBI knows nothing more than
 adrenaline fight, noise + fear of nothing,
 then hides so the citizen can never stop them!
 My body is harmed + damaged from
 10 years of cardiovascular + smooth muscle,
 (bladder, etc) damage from provoke
 response ^{adrenaline drive} reckless misuse of power
 FBI agents. I was provoked too long
 + they crushed my pelvis 5 years ago!

They surround you from everyone (10 years now)
 & have your relatives & friends wear their
 T-shirts & parrot their themes at you to enrage
 you, even when they aren't real & like
 myself it would take me no effort to prove so,
 so the Big bad FBI won't allow me access to the
 law. A typical work day consists of
 2000 fear words & 3000 fights & raises, a
 total of about 5000 provoke responses per
 day. As disability it is about 500-2000
 times a day. There is a camera on you
 at all times so the words, i.e. post office,
 become a flight/fear cue. Then TV, radio,
 license plates, billboards, words (post
 Cereal) take over & you end up reacting
 hundreds & thousands of times per day,
 even when you are completely innocent or
 unharmed in excess of anything.
 The FBI is a billion dollar, cannot possibly
 imagine what power, control & corruption
 they engage in, freak show of police
 crime & wrong, sneaky behavior.

11. This is supposed to be used ONLY to get
 Actual Confessions of real crime the
 person actually committed & show watched

No criminal tape of an actual crime of mine
be produced in 10 years except for 6
months of tape regarding discovery which they
were done getting in 1998, while they were also
telling me I was blowing up post offices,
which was never even possible.

12. They annoy you so often & so intensely that soon you cannot read, look anywhere except the sky & the ground or exist without ear plugs. Their noise never ends. Frept & noise provoke you on all day, everywhere. As in my 6 work years with them the only conversation you hear is provoking & soon you are unable to speak to anyone without waiting for a provoke. In public my heart rate is about 130. The FBI 5 years ago caused a provoke response consequential condition of contracted skeletal & smooth muscle in my pelvis. My bladder, bowel & vaginal muscles are contracted & have torn & they keep provoking & "do it here". Examples of work documents forced to type are Exhibit E. They load the letters C fear words & then time frept & noise hit them & raise adrenaline at the word. Soon, presentment of the word

13 triggers fear alarm & you get more adrenaline at it. You are supposed to. That is the purpose. The FBI did this to me for 4 years, then forgot that I was supposed to get more adrenaline at fear words, so they did it to get tape of me getting adrenaline exactly when they forced me to, to blame me & twist scene & liability. This will be discussed further under Adrenaline provoke condition as another crime of the FBI.

Mishandling, Excessive Force
False Deduction of Investigation
into my childhood.

14. I do not know how long the FBI has been violating my life. I do not know when it launched an "investigation" into my childhood but I suspect it was many years prior to the FBI letting me know it was there in late 1995 + my first knowledge that they were questioning this in late 1996-1997.
15. From late 1996-1997, along with their postal unaluminum show, the FBI has as recklessly and inhumanely as possible + with the most malice + excessive force not appropriate to my actions, harassed me about children.
16. I participated in normal childhood discovery. I also curiously laughed at peepers a few times as a child/adolescent because 4 children + my babysitter did this to me. This was 1 second of laughing at a peeper without touching or harm to anyone. This was 30 years ago + was never, ever done by me again or even remembered.

I had no child molestation problem & molested no one as an adult, only participate in disney 30 years ago. This did not by the furthest most malicious stretch of an agent's ego, make me an adult sex offender. My Agents deserve a sentence for the years + excessive harassment they inflicted on me about this. They obtained tape about this in 1997-98 + were done. They never stopped abusing me about this to date. This is illegal.

- 17 Their tactic regarding this included the tactic as mentioned above and about 1000 times a day since 1997 - forced me to get provoked at a child word. They timed fight + wait at these words, got a confession + never stopped. This was not appropriate. I was & am not an adult sex offender + 10 years ago planned on having a family. The FBI has destroyed this along with every aspect of life for me.

18. The FBI was + is well aware of the fact that Keener disown, I walked around not knowing I was under surveillance + molested no one, having a normal interaction & relationship with children as an adult.
19. According to the map & psychologists, children do these things and they are not indicative of harmful intent nor adult problems. I forgot that I did this + had a normal sex drive for men my adult life which the FBI also keeps obstructing.
20. The FBI is also guilty of creating sources + forcing tape defending myself implying child molestation during periods of surveillance where it knew there was none. This is illegal.

FBI Agent Consequential
Provoke Response Adrenaline
Pelvic Contracted Muscle Damage

21. Because of the FBI's tactics of provoke
of Adrenaline only, I am suffering from
a FBI agent induced Catecholamine (Adrenaline)
induced pelvic smooth muscle, bladder,
bowel + vaginal - contracted to state with
muscle tearing, bleeding, tissue stuck
in my uterus, nerve damage + constant
abnormal pain + squeezing contraction
of all pelvic muscles. This is only from
too much provoke response adrenaline
caused only by the FBI. This has been
contracted with a worsening pathology
+ cumulative pulling + a chat of worse
damage each year since 2000. The FBI
continues to recklessly maliciously force
tape + contracting me on purpose with no
regard to damage to my organs or chest
pain + 1 sided numbness for the last
3 years. They said "we know we don't
care". See Exhibits ~~E~~ = Medical records.
Bladder instability, enlarged heart, anemia from
vag bleeding after surgery from contraction, nerve damage,
abnormal pap smear, proliferative tissue stud in contracted
pelvis,
- 16

My access to law + legal medicine that would certainly prove that I am right is being obstructed on purpose. Too much adrenaline contracts the pelvis. This is a fact.

22. The FBI knows their fight, noise + fear alarm is provoking of adrenaline + it keeps using fight + noise to contract on purpose. Then it acts like it does not understand + that I just am evil for being contracted.
23. This is what they did. They used constant noise + fight generally + then on purpose at specific words-timed. Those words were about 1000 child + 1000 other harassments about anything ^{repeated} per day. This caused me to provoke respond first at their fight + noise + shots of adrenaline through the bloodstream + then at their fear words. Once in place presentment of the fear/new react word was provoking due only to the FBI agents changing perception of it for me, forced on me, from normal to fear. The FBI

Agent knows that the sole purpose of this is
 to from that second on, every time they say
 it or it is presented, I am expected & forced
 to react & more adrenaline on purpose (why
 agents did it). Agents did this on purpose.
 They intended from 1997 on that the word
 "Kid" should produce more adrenaline at the
 word. That was my agents' intent. After they
 flooded me with adrenaline 40 years or 8 million
 (about 2 million times per year) my pelvis was
 contracted. I believe agents did this on
 purpose & knew that massive amounts of
 adrenaline would contract my pelvis. Then,
 once contracted in 2000, my agents were
 happy & forgot that they did this to me & their
 own tactic. They essentially trained me to
 perceive child about 40,000 month & about
 35,000 other words per month as fear provoke.
 I was raised & fight provoked 75,000 times a
 month & fear 75,000 times. Each of
 these produces contracting adrenaline.

24. Then my agents & entire FBI "forgot" that they
 produced adrenaline for a living. They
 subjected me to 3.5 more years of provoking

during work until I could not work anymore. The FBI has been provoking me from 2000-2005 for tape & hurting me everyday as my pelvis is contracted & each & every drop of response adrenaline they put in my blood stream changes my provoke response adrenaline & contraction, as it should, because they pretend to "not understand how or why I get Adrenaline at the word Kid." When that is exactly what my sneaky rotten FBI Agents did to my body on purpose. See Exhibit 16 adrenaline research

25. I am suffering from only 1 thing, not being evil, rather excessive force provoke response, done on purpose by my agents.
26. The table attached hereto demonstrates (Exhibit 17) what occurs to pelvic muscle with the addition of adrenaline.
27. The FBI knows its noise & fright & fear are response inducing alarms & that my producing adrenaline at them is appropriate & expected. I am essentially paying with my body & life for them provoking me too long & too excessively.

The FBI has no right to be astonished that I produce adrenalinic at Kid, that is what their 3500 of chemical provoke what strategized & tried to do on purpose.

28. The FBI is suffering from provoke + their strategy amnesia while allowing malicious bodily harm to go on.

29. Someone needs to stop them before they kill me with adrenalinic or rip my organs again.

30. What happened to my bodily is easily explainable in a court of law. The FBI won't face me because damn right. Then they are liable.

31. By 2000 they stopped my periods. In 2001 an ERG was done demonstrating contraction at rest + I was bleeding on penetration. While I had a normal Pap smear in 2001, because of an increase in noise provoke + it being the 1st year of cumulative contraction, tissue

Was stuck in my uterus because they
 kept contracting me on purpose at work +
 everywhere. They make noise like bats
stamping or hammering, on purpose,
constantly + were literally squeezing blood
out of me from 2002-2003. In 2003
 I had a D+C to get the tissue out. 2 seconds
 later they were back provoking away again.
 My heart rate was so high I had chest
 pain + my left arm had pain shooting
 down it. Several times I thought I
was dying + they were still making noise
+ fight like it was nothing. I had to quit
 work in 2003 because it is like a ~~group~~ ^{from chronic} attack
 + I almost died at my desk. An agent
 commented around then "Ain't I doing
 good?" About 100 planes flew over my
 head + I was continued to be provoked to
 July of 2004. While picking up something
 heavy, due to contracted tons + the FBI's
 Sirenade of 1/2 hour of planes, my bladder
 muscle ripped. The lining in my rectum
 ripped 2x + my vaginal wall tore in
 November 2004. ~~I~~ I sold my home in →
 * Another Emg was done in 12/04 showing
my muscles are completely contracted at
rest I need valium to relax them so then I can't rest

January 2005 because I am unable to work & moved into an apartment. Now the FBI thinks its OK to stop in year 10 after my organs have torn & keep pumping more fight response on my pelvis. I scream & yell but they never stop. My pelvis is practically tearing at rest. They wait wait on me for another pap smear. ^{Q Had one 3/3/05 smaller pap smear.} ~~I have not had one since 2002.~~ They don't care. Every month I literally have to peeing out pee through contracted muscle (5 years now).

32. They keep contracting me with grief & noise & fear & forcing me to secrete a 20 million time chemical prostate response they know is their own fault, on me. Someone needs to stop them, they can't do it.

33. My agents are using children to get out of trouble for damaging my pelvis with prostate. They know they made me get adrenaline at kids. They did it on purpose.

34. What Contrasts My Reluctance
to Adrenaline Provoked Response
Alarm That Other Tactics Fault

- ① Perception of fight i.e., wait, hold, blocking, trapping, dilemma, distractions, drawing in front of slowly, swarming, blabbering, obstructing something - their typical tactics!
- ② FBI noise - The Bureau loves its noise!
Coughing, banging, stomping above your head, machines, sirens, blabbering fake conversations & cue words to harass, any noise
- ③ Fear/Now - Already Trained to fear word. Presentment of this only produces adrenaline because agents changed the word to fear provoking & adrenaline is only changing because an agent changed it for you.
- ④ Enduring & Ignoring anything - a fear word, a provoking employee, a prop, etc - anything added to the play they sure they are a peripheral nightmare.

⑤ Fear of Contracting - Since this freak show of police crime is mounting my pelvis somehow & I get punished if it changes, yet their adrenaline contracted it at 8 million provokes now 11 million more on purpose to get tape I pulled one day; or

⑥ Not guarding the Permont Contract they caused with 10 years of provoke chemicals. There are muscles I can control. If I don't, it shifts. They somehow know & make up it shifted for whatever reason they feel like. It is permanently abnormally contracted like a slinghot due to 10 years of provoke chemicals.

35. Agents Know

- ① That they provoke adrenaline for a living;
- ② Know they induce adrenaline with fight & never do it on purpose daily & then pretend like they never did.
- ③ Know that adrenaline changes heart rate, & pulls skeletal & smooth muscle. They know that as of 2000 (+ now 10 million more cumulative times) that they are pulling me to complete

^{spain}
Contraction with provoke response chemicals
that is their fault + not my guilt to what
feels like the pelvic bone. They know
they are hurting + tearing muscles + lining
of vagina, bladder + bowel, sphincter + rectum
thighs + are causing abdominal fullness - (spleen
area). They know they are causing chest pain +
Unided numbness + they know adrenaline
does this.

④ They know I am producing adrenaline in
response to their provoke, yet pretend like its a
test + they dont.

⑤ They know they are wilfully hurting me on
purpose + that I have worsening pathology
markedly tighter at rest each day + year,
because their daily induced chemicals
keep re-squeezing what is already squeezed.

⑥ They know it is illegal to harm a
citizens body in the U.S. This is how they
are breaking the law.

36. Someone needs to stop the FBI from their
provoke being used on me before they
kill me. The FBI is breaking the law as follows:
The FBI is criminally + civilly guilty of
falsely deducting the science of what is
going on with this condition on purpose when
they know it is their provoke response, fear + pain

37. My agents did this fear training from 1995-97. Then AT-2000 with child based words + 1000 others. Then in 2000 became astonished that I got more adrenaline at those words. They dangerously contracted my body + now have done it 10 million more times + my muscles are tearing from abnormal tension at rest.

38. In addition to this fear change of adrenaline, they never, ever stop fight + noise provoking, about 1 million times per year that continues to vasoconstrict + damage my body. Then they pretend like they didn't.

39. I am chemically, really suffering from cumulative squeezing of pelvic muscles from provoke response chemicals. The FBI keeps trying to make fear words selective to get out of provoke mutilation liability + blame me. See Exhibit # - harassment fight + fear chemical inducement yearly log.

They have had a 5 year quest of contracting me on purpose to get tape to support a theory that forgets I am

The Science of Provoke Tactic

Fear Training & How It Provoke

Response Contracts my Pelvis the fault of the FBI

40. The Science fact of what the FBI 3500
 doing a row of provoke chemically have
 done to my pelvis is contract it with their
 fight, noise fear training tactics. Agents
 take normal words or words normally
 perceived by all to not induce a nervous
 alarm fear/fight based provoke response of
 certain change in adrenaline & change them
 into words that at the second of perception
 abnormally induce a response & adrenaline
 change. Prior to doing so, the citizen did not
ever react to that word with more adrenaline.
This magically makes the word from that
point on in of itself capable of inducing
adrenaline in the citizen when it never did
before. Agents did this with about 1000 kid
 words & 1000 harassment about everything
 else words. The FBI knew that this would
 change my body & force it to react to the cue
 as a provoke word cue. This should then
 be expected to change my adrenaline & all
 that changes with adrenaline, heart rate, etc
 should change. This is not my guilt. It
 is a medical certainty agents should
 expect me to do. That was their purpose
 in doing it.

Suffering from provoke response 19 million
times, 3500 days of chemical warfare, and
implies I just contracted as a fear work
5-times because I am evil + the FBI is
wonderful + had nothing to do with this.
This is illegal.

41. A 5 year excuse of getting top harming my
pelvis organs like my uterus, vaginal wall,
pap smear, taught bladder muscle, etc. is
Unacceptable in the U.S.

42. Someone needs to stop them.

43. The science is provoke response 20 million
times, not I just contracted magically
all by myself + its mine + anything else
except federal provokers' faults. This is
why they keep doing it + won't free me.

44. The science they are operating on is malicious
+ that of intentional amnesia to their
own fault tactics.

45. My body is ravaged by the effect of too
much adrenaline. Everything adrenaline

Changes in every textbook in the U.S.
has been damaged extensively in my body

46. The bureau only keeps promising to forget to blame anything except their provoke + love of Adrenaline. They are seriously implying its "legal" to harm my body every day for 5 years in the U.S to forget to up contracting 5 times in provoke response out of 20 million is legal. Somewhere in the U.S. I was informed on 3/21/05 that I have another pass near with atypical cells + need another biopsy, ^{possible} but I could have cancer. The FBI's provoke effects the lining of pelvic muscles + has caused this cell damage.

Other Medical Condition of
Sensory Nerve Damage The
FBI Mishandled

47. In 1982 I moved into a building into my first apartment. While cleaning the Kitchen Sink, I noticed an eel like snake sitting in the curve of the drain with its head visible just below the drain guard. I saw it for several months. I don't know how this is possible but it was there that I saw at least 30-50 times. I poked it, poured cornstarch on it, poured liquid plumber on it & finally put crystal draino or something down there & then did not see it. A few days later, much to my shock & horror, a dead snake was in the middle of the floor of the basement when I went to do my laundry. From the first moment I saw the snake in the sink I began to be scared of the apartment & questioned, as anyone would, if something was wrong with the plumbing/water. I began to be afraid to drink it or use the water at all. I was alone & had no money & nowhere to go. I saw a few other snakes while living there as did my friend when we were moving out. I did not imagine it.

48. During this time I had been on prescription diet pills from a doctor taking the normal dosage. In September of 1982 I was diagnosed with a false positive mono test + positive CMV virus test. I was told there was nothing I could do about it except take aspirin. My neck was extremely swollen + I was quite lethargic. I was so exhausted I could not get out of bed. I was on my own for the first time so I began overdosing on diet pills to go back to work. By the end of the year I was taking 4x the regular dosage. Around this time is when I noticed the snake, and while most would say I probably hallucinated it, it was very much there. Others saw it after it was dead. This would be scary + traumatic to anyone + to someone on drugs, it was even more so.
49. By Spring of 1983 I believe I was taking between 4-7 x the dose of pills because I obviously was addicted + built up a tolerance + was not in control of anything. This was a horrible time in my life filled with many other traumas although nothing is as bad as life with the FBI. I was

strung out on pills & needed help. Eventually I did wean off of them & have no addiction problem since then.

50. Unfortunately I did not stop soon enough. In spring of 1983, while addicted to pills, I woke up one day & did not feel good. I became extremely nauseated & suddenly, as though someone had turned on a button, began itching all over - almost to pain. I was hysterical. I called several doctors & sought several avenues of finding out what was wrong. This was a constant overall never ending horror where I could not stand anything, even clothes, on my skin. This went on for a few months & then as I weaned off drugs, eventually subsided. I was so sick at this time that no one could imagine this sensation & could live through it. I would find out 20 years later, with absolutely no help from the jone of law enforcement FBI, that I had demyelinated my own sensory nerves.

51. During my search for what was wrong I thought maybe it was from the virus ~~the~~ spent many hours reading medical books trying to find an answer. An addict, as I was at that time, never really thinks their drug is a problem & I definitely did not think a pill was capable of doing this to my body. Because I saw the snake in the sink, I, as anyone would, thought maybe something was wrong with the plumbing or water.
52. I believe the FBI was surveilling me then & did nothing to help me find an answer until 2003 when a neurologist told me I had nerve damage. This is a 20 year crime for them.
53. This condition subsided except for intermittent sensation problems until March of 1990. I had oral surgery & had a cyst in my sinus removed. After surgery & penicillin, my extreme itching & pain came back again for a few months, then gradually subsided.

54. I was heptelical again & tried to find out what happened. I even went to a neurologist & was told I could have nerve damage from diet pills but there was no evidence of that. No tests were done either & all I needed was an EMG. The FBI failed to have that done & me informed that I had nerve damage, again. Although once they made their presence known in 1995 & I was not on the secret surveillance plan, they had much fun making fun of me about this & implied I was crazy & had no sensation damage. The fact that there was a snake in the drain was as of yet unexplained coincidence maybe the FBI can explain one day, that is simultaneous with my development of an itching, feels like crawling, worms, sensation & what was really demyelinated nerves. There is a condition called formication that is a symptom of these sensations that people get when overdosing. Another thing the FBI forgot to tell me, letting me wonder what possibly happened to me & how anyone could have a snake

in their drain everyday. The FBI is a giant freakshow of choreography so to me it would not have been beneath them to put this there on purpose to scare me or draw attention to something. No one would believe what they really do to citizens.

55. In late 2002 I was seeing a neurologist, Dr. Madden. He did a leg EMG and said that my sensory nerves were mildly to moderately demyelinated. See Exhibit ~~H~~-I. He said, your feeling nerves are sick, something happened + I don't know what, but they are demyelinated. I asked him if either CMI or the diet pills could have done this + he said "yes, if it broke the stress axis." This would confirm + explain the abnormal itching + pain during taking the overdose of pills. He also said that itching is pain which explains why sometimes I feel itching or pain or pinching.

56. I believe the FBI was in my life regarding this for many years treating me as though I imagined this sensation was

mentally not physically ill. I think
they used this as an excuse to surveil me
for many years when in reality I had
sensation damage. This is a crime for them.
 NO agent ever instructed any physician I
 saw to do an EMG which finally brought
 an answer to what was a 20 year medical
 horror for me. They had much fun making
 fun of me all day with snake comments + even
 taped feathers to a car one day to represent
 nothing. The FBI caused me to lose much
 time from my life because of this. It
 slandered my name + had me falsely
 labeled while obstructing my freedom.

57. The FBI never wants to stop surveilling me.
 Its like saying you have MS (motor nerve
 damage) so you can't live. I have sensory
 nerve damage. Rather than admit I
 have nerve damage + am not "imagining
 it" like the FBI uses as their free pass
 to steal my life, the FBI should be forced
 to stop obstructing my life about it.

58. I had sensation damage. The FBI treated me
 like I was crazy. This is a crime for them

Damages

The FBI's entire operation + harassment of me is a conspiracy + scam of corruption, misconduct, false deduction, illegal coercion, slander + never ending false themes, reasons + excuses that when challenged by anyone in law or by anyone with a sense of fact, reality or truth would be uncovered for the conspiracy + agent ^{non-}criminal excuse that it all is. Their handling and violating my life is a never ending twisted fiasco of illegal harm, delusional pipedreams, redundant, repetitive, false themes + self serving - cover up of agent liability. It is the same with all issues. See below:

Truth - Provable in Court

1. Discovers I was in adolescence
Not an adult offender
2. Nerve damage
3. Got slaps / moving kit

FBI's Version

1. Still decades on my life. Got a statement 8 years ago never stopped harassing.
2. She's crazy + is not experiencing nerve damage
3. She's a postal criminal + forgot I was under surveillance + could not have been

Truth

4. Suffering from 10 years of provoke response chemical, appropriately reacting to their cues to react & more adrenaline

FBI Version

4. Forget they ever provoked me 30 million times & specifically trained me to react at cues.

The following are damages I incurred as a direct consequence of FBI agent behavior:

1. I believe I was secretly surveilled for an undisclosed amount of time, perhaps decades for non-legal reasons.
2. I was blatantly swarmed, imprisoned, stalked, & relentlessly, maliciously & illegally subjected to cult like programming, fear training & harassment not leading to the solving of an actual crime of mine for 10 years as of October 2005 causing extensive emotional distress pain & agony & physical harm from adrenaline in response to their provoke.

3. Slender

4. Obstruction of Justice, The FBI has blatantly obstructed my access to the law & legal medicines, because what they are doing is wrong, ^{illegal} including bodily harm.

5. Theft, vandalism.

6. Staged car accidents & damaged/disabled my car. Had a mail truck hit me in 1997. Had a man in Chicago wearing a Boston hat hit me - See Exhibit #1, along with many others. Disabled my car after buying groceries.

7. Homelessness - obstructed hundreds of apartments called & screened me constantly while calling. Obstructed the return of a Rental Security deposit. Refused to return me in a hotel, forcing me to charge an apartment & then would almost not let me live there (or anywhere). Chased off the streets of Boston. Had dad force to go back to Boston, then blocked all the

Apartments & said "We'll just get in front of that one too!" Would not let me get an apartment until I called the police, then suddenly there was one. While viewing an Apartment in 2000 had sign on door saying "Go away". They make housing impossible & then once you move in, never stop making noise & turn it into a prison cell of constant abuse. Stomp above your head & break everything.

8. Joblessness. They hire & fire you whenever they feel like it & torture you all day long, including inventing skeletal mishaps, etc.

9. Subjected to Constant harassment of the Sympathetic nervous system with rage, flight & noise which harmed me everyday & after the first 4 years, contracted my pelvis. Then did it 5 more years on purpose causing extensive cardiovascular damage, an enlarged heart, a normal heart rate at all times when they have access to me, chest pain, 1 sided numbness, Cardiovascular osteochondritis smooth muscle pelvis damage of bowel, bladder & vaginal muscles & reproductive organs. Had a D&C to

remove tissue stuck in uterus. Caused 10 months of constant bleeding due to vaso-constriction from constant proctoke, urogenital mutilation & adrenaline pulling all muscles, causing the bladder, vaginal wall & lining of the rectum to tear 4 times.

10. Gross, neglectful malicious criminal misconduct & false allegations causing much wasted time and harm.
11. Agents forgot prior surveillance on purpose making me incapable of their allegations.
12. Stolen money and things.
13. Damage to my home including water heater and furnace. Forced to sell home.
14. Always causing financial distress & worry. Send paid bills to collectors. Don't give raises at work where I was tortured all year.

15. Agents turn off + on attitude whenever.
16. Creating agoraphobia because of excessive swarming + harm incurred 10 years that physically hurts my body everytime I go out or whenever they provoke where I live.
17. Incapacitated from any gainful employment because my bladder, uterus, etc is pulled on with FBI typical voice which causes bleeding + pain + heart rate in public everytime of 120 or more. My tripe is pulled to the pelvic bone + has been for 9 years from provoking and they just keep adding more provoke in an attempt to sway the issue from their provoke response to someone else's fault.
18. Their agent ordered noise abuse of planes, sirens, coughing, banging, blabbering, etc. has made me unable to be in public or hear anything without pelvic contraction + pain.

19. They rig + break all electronics including your computer + printer. They disable your CO's or words + disable batteries + cameras + recorders so you cannot tape them or take pictures of their abuse.
20. They cause intentional bill / banking problems.
21. They block traffic daily + create deluded time based accidents. They control TV, Radio + commercials + provoke through these media + create rouses.
22. They cause you to be late whenever they feel like it, especially to work.
23. They raise your rent, mortgage, parking or anything whenever they feel like it.
24. They turned off my heat in January in Chicago and stuck my doorknob.
25. They locked my screen door from the outside in Mass so I could not get in.

26. They locked my car doors with the car running while getting mail.
27. Kept refund money causing me to sleep on a hardwood floor for weeks.
28. Stuck noaches in my house, maggots in my cat's food & put a dead mouse in my apartment.
29. Questionably made teeth not salvageable at a dentist when a few months earlier they were.
30. They made 3 cats disappear including 1 I had for 10 years.
31. Harassed & threatened for 8 years after a statement about child discovery.
32. Falsely deducted me as mentally ill for 20 years when I really had sensory nerve damage.
33. Believe the FBI surveilled me & stole up to 20 years re discovery without confronting me or obtaining a statement & now 8 years after of constant abuse.

34. Stole several years chasing a postal illusion that was never even possible as I was under surveillance for years & did not know it.
35. Am at 5 years now wasted with the FBI "not understanding" that it crushed my pelvis with provocative of fight noise & fear alarm, all changing adrenaline as I correctly perceived their provoke & it triggers responsive alarm & chemical with extensive pelvic damage. I have been provoked about 20 million times now & 10 years in October 2003.
36. I called the DA's office to attempt to have the FBI charged with bodily harm. I was sent a letter saying they could not help me - which agents then stole. They obstructed my access to have criminal charges filed for my pelvis. See Envelope Exhibit **K**
37. Have had to take tranquilizers & pain pills to endure provoking & control heart rate for 10 years.

38. Endured 2 mental hospitalizations wherein I was told the FBI wasn't there + I was forced on anti delusional meds. Had to go to therapist (one gave me the finger while I talked) + said he did not want to get involved. Currently have to go to a therapist who tells me they aren't there either and I am have Schizophrenic disorder, while feeds crank him at the appointments + raid the waiting room + office. They control all appointments + doctors swear they can't because its illegal.
39. Suicide attempt in 1998 because could not take harassment + being wronged anymore.
40. Developed several ear infections from wearing ear plugs since 1997. To this day if I take them out, they bang + thump its funny. Their noise contracts my pelvis + literally squeezes me in half for 5 years now.

41. Specifically, the Boston BI did the following:
- a. McVeigh + stalked me off the street for no reason in 1996.
 - b. Made housing impossible to find + forced me to lose money on hotels.
 - c. Forced me to endure job interviews I would never get.
 - d. Because of blowing screens downtown on purpose, caused me to fall down stairs + fractured my ankle. Then forced me to sue the parking lot + city + then said, "That's the only ~~statement~~ ^{Settlement} you'll ever get"
 - e. Caused constant harassment + abuse + wrongly fired me.
 - f. Sent paid bills to collection, + again 1/27/04.
 - g. I come to Boston to live for the 3rd time in October 2000. I was already suffering from chemical prostate response contraction + they did it 9 million more times - for as it pulled 5 times.
 - h. After buying my first home which I just had to sell, they broke the water heater + furnace

my TV whenever they feel like it + freeze my pipes. This cost about 3000 so far. I was denied a raise + my mortgage was raised 200.00 mo.

I. Disabled me from work + made me worry about disability for 2 years. Finally forced to sell house + have to live off of 1300/month as of 10/05 + my inheritance. Continue to force me to pay health insurance when I could be on Medicaid.

J. When I start saving money they increase bills + break things.

K. Specific money lost because of ^{all} FBI:

1. Moved to Mass 10/95. Got apartment 3/96 + was tortured off street + out of job.

Auto went home 6/96. Lost Security deposits, income + travel costs.

2. Tried again to work:

Lyon + Lyon - La Jolla, CA.

Was relentlessly abused at work. No one 8/96-8/97. No legitimate questioning either. Was at home in bed where nothing was resolved, solved or accomplished by FBI - the same as it is the last 7 years.

3. Travelled back to Mass. In motel in Braintree 8/97. Would not let me rent apartment. Walked in front of mo. said (on way to find apt) "We'll just get in front of this one too. Wasted hotel money sitting waiting for apt to call back they obstructed. Finally I called the police. Suddenly apartment was available. Moved in. Kept stalking me & was afraid to go downtown after what they did last time & left Mass. Was assured could have security deposit back to secure another apt. Went back to Chicago & again would not rent to me. Kept security deposit over amounts. Had to change an apt & sleep on hardwood floor no bed. Costs: Travel across country, hotels, worry. At least 1500.

4. Oak Park, IL
Caused constant banking problems, utilities, could car repairs, towing.
Costs: At least 1,000

5. Downers Grove, IL

False cable bill already paid - said wasn't 70.00

Sleds broke car completely - had to get new one.

Could not afford payment.

Small bills & credit cards were behind accruing interest & fees.

Had almost no money or food. Called me \$100.00 trapped in purpose as a false ruse.

All bills snowballed into collection

6. Back to Mass 10/00

Again, stuck in hotel & would not visit me for 3 weeks. They had ability to make apt available anytime. Called about 100 places - they screened me & obstructed calls.

Excuse - same as today -

chasing why their provel chemicals

contracted my body in 1999 while they

continued to induce chemical 2 mil/year.

Did not deliver car payment (several times or made late, then charged late fees.) hotel 2000.

broke microwave \$100.

late fees 100.

paid off credit cards & fees?

months of

Tore lining of bladder, Vagina +
Rectum 4x in 2004.

Still provoking.

Moved to apt 1/28/05

Increased noise provokes pulled
pelvis tighter. Cannot walk
through apt c/o noise contraction
in year 10. Worsened condition.

42. Tried to confront the FBI several times & was told "just complain to us". See Exhibit 15

The Plaintiff hereby asks the Court for the following:

1. Appoint counsel to the defendant that the FBI does not corrupt or obstruct in seeking criminal & civil damages + reserve the right to amend this complaint or reply with such attorney once the FBI stops hiding & acknowledges its presence.
2. Force the FBI to appear & allow all issues to be resolved with attorneys as each day of more provocation as they are destroying my bladder & pelvis which took 3 months ago & 8 months ago.
3. Force the FBI to cease surveillance & its right to provoke as it is not obtaining tape that is solving a crime of men or changing the science of me suffering from provoke response to a different science by continuing to provoke adrenaline.
4. Force the FBI to not cease disability payments since its inability to control its provoke at work has disabled me & literally squeezed me to pelvic bleeding

- 4 Chest pain the last entire year with pain shooting down my arm from adrenaline.
- 5 Force the FBI to appear this year so I do not have to waste inheritance for buying a home they forced me out of on survival since they disabled me from gainful employment in 6/02.
- 6 Force the FBI to stop breaking my appliances, vandalizing my things; including my car, or my TV, etc, as it is not solving a crime of mine.
7. Force the FBI to subject their excuses & medical theories about my pelvis & nerve damage to an objective expert who examines their tactics & my body for actual chemically monitored adrenaline changes during their provokes along with my attorney & a few experts so this 5 years of abuse about a medical issue can be resolved, by objective experts & real science, not the FBI's version of science & law that says its 20 million provokes of adrenaline are not provoking adrenaline.

8. Force the FBI to stop harming my body with provoke.
9. Force the FBI to not steal my money from my accounts or alter bills or any other typical antics or hurt my cats again.
10. Force the FBI to disclose how long it has been surveilling me.
11. Force the FBI to not obstruct my pursuit of filing criminal charges against them for this bodily harm they are so totally responsible for + advise the plaintiff of how to close as no one will tell me. It took me 9 years to find out I could file this complaint.
12. It is impossible to put a price on the damages at this point so plaintiff wishes to consult with an attorney first that the court orders as the FBI does not let me get them through usual measures.

13. Tell the FBI to stop harassment, threats and stalling with false unscientific deductions.
